

Brief Biography

Dr. Robert A. Weiss developed an interest in research while an undergraduate at Columbia University, graduating cum laude in 1974. Dr. Weiss received his medical degree from Johns Hopkins University School of Medicine in 1978. In 2005, he was promoted to Associate Professor.

Dr. Weiss practices cosmetic dermatology at the Maryland Laser, Skin, and Vein Institute where numerous clinical trials on new lasers and pharmaceuticals are conducted. He has conducted trials on Reloxin®, Isolagen®, Levulan®, Gentlewaves™ and dozens of other new anti-aging treatments including novel lasers and light sources. Dr. Weiss was board certified in 1983, and is has served in leadership positions in the AAD, ASDS, ASLMS and ACP. He presently serves as President-Elect of the American Society for Dermatologic Surgery.

Dr. Weiss has served as Associate or Contributing Editor for the Journal Dermatologic Surgery and is on the Editorial Board for Lasers in Surgery and Medicine. Dr. Weiss is the author of over 100 publications, including a dozen textbook chapters and three textbooks. He has helped to develop new methods of non-invasive varicose vein treatments, lasers for telangiectasias and initiated new methods of reversing photoaging by lasers and light sources.
